Materials: red wool scraps, ribbon for hanging, button or beads for the center, green wool for leaves if desired

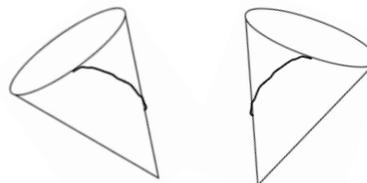

Assembly: use a glue gun or needle/thread

Directions:

Cut 12 or 14 circles 1.5"

Cut 1 circle 1" for the back

Roll each 1.5" circle into a cone...alternate folding left side over right, right side over left. Sew or glue. Then sew or glue cones together in pairs, match a left fold with a right fold. It will take 12 or 14 cones to make the circle.

Lastly, sew or glue pairs together to form a circle.

Add a button or beads in the center of the flower. The 1" circle will be sewn or glued on the back to cover the center and hide the ribbon used for hanging. You can also add leaves on the back. Cut 2 sets of 2 about 4.5" across.
